

KABETOGAMA CLEAN WATER INITIATIVE STEERING COMMITTEE MISSION STATEMENT

To establish a framework and process and engage in the planning, development and management of wastewater infrastructure in the Kabetogama community that is economically, environmentally and politically sustainable.

- We will communicate with other property owners and provide opportunities for feedback.
- We will make recommendations to the Kabetogama Township Board of Supervisors.

We are engaged in this process in the best interest of:

- Kabetogama property owners, current and future
- Current and future generations of Voyageur National Park users
- A clean water environment for our community, Voyageurs National Park, St. Louis and Koochiching Counties and State of MN

Envisioned Benefits

- Clean water
- Managed wastewater infrastructure which is managed by the Township vs individual properties owners and will always be in compliance.
- Lower long term costs for property's wastewater treatment
- Increased property values
- Eliminate seasonality. Ability to have year round sewer service.
- More useable property space. (elimination of mounds, drain fields)

OUR VISION

A CLEAN WATER FUTURE FOR KABETOGAMA, BENEFITING THE PEOPLE AND THE ENVIRONMENT OF THE VOYAGEURS NATIONAL PARK COMMUNITY.
